Didsbury Fair very Successful.

GLORIOUS WEATHER AND BIG ATTENDANCE OUTSTANDING FEATURES.

The annual exhibition of the Didsbury Agricultural Society was held here yesterday, the weather being perfect. Indeed, the most optimistic of the officials could hardly have imagined a day so faultless in regard to weather conditions.

In keeping with the day, the attendance created a record. Commencing at a comparatively early

Car Owners Warned.

Alberta automobile owners are strongly warned to be on their guard against fake solicitors of so-called "gyp" motoring organizations who reap their biggest harvest of motorists' money during the touring season and while "working" the numerous local fairs.

The warning is issued by officials of the Alberta Motor Association on the basis of reports from the American Automobile Association, with which the Alberta club is affiliated, and which is broadcasting the information that high pressure salesmen of "gyp" clubs are unusually active throughout the country at the present time.

"The 908 clubs in the A.A.A. chain are making every effort to drive the "gyps" to cover," a statement from the headquarters of the organization says, "and a number of the operators in the most notorious of these fake organizations have been prosecuted and sent to jail. Federal officials are hot on their trail but these fly-by-night gentry dodge from place to place and no sooner is one gang behind bars than another gang gets on the job."

It is pointed out that these "gyp" solicitors claim to be representatives of the recognized motor clubs and obtain sums far in excess of the membership fees in the A.M.A. and other associations. In most cases the agreement to provide membership cards, emblems, maps and signs are never fulfilled. Moreover they imitate the well known trademark of the bona fide clubs like the A.M.A.

It is estimated that the total collections of the "gyp" motoring organizations in the United States and Canada exceed \$25,000,000 a year.

MOUNTAIN VIEW NOTES

The Mountain View W.I. will hold their annual picnic on Thursday, August 11th.

Several families from the neighborhood have been holidaying at Banff.

Inez Wood of Calgary is visiting her sister, Mrs. James Worrell.

Irene Haynes is doing very nicely after her operation at the Didsbury General Hospital.

Mrs. Ed. Blain spent a few days with friends in Calgary.

(The above items arrived too late for insertion in last week's issue.—Editor Pioneer).

The Mountain View W.I. met in Community Hall on Friday, July 29th. Mrs. Haynes gave an interesting report on the Annual Convention held in Edmonton.

On Tuesday, August 16th, the members of this W.I. are planning to visit the Olds School of Agriculture.

The Mountain View W.I. will try to hold their annual picnic which has been postponed to Wednesday, August 10th. Dance at night. A good orchestra in attendance.

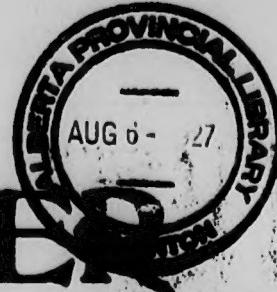

A number of families from this neighborhood visited at Sylvan Lake on Sunday, July 31st.

ary tickets, would probably run the total attendance up to 2500.

The quality of the exhibits was fully up to the standard of previous years, a slight falling off, however, being noticed in the live stock entries. This deficiency was made up in the fancy work and home-cooking departments, the interest in which this year was especially noticeable.

During the afternoon the Olds Elks band delighted the big crowd with its selections and did much to make the afternoon enjoyable. This band although of only recent origin has nevertheless made fast progress and the members are to be congratulated upon the really excellent program which they submitted.

As time this week does not permit a lengthy report, full details of the exhibition will be given in next week's issue.

Foot Troubles affect the whole system

Don't neglect your feet

Free Foot Comfort Demonstration

AUGUST 9—Afternoon only

AUGUST 10—All Day

By an Expert from Toronto

Pains in the feet go through the nervous system to remote parts of the body, causing distress which nothing will remove till the real trouble is corrected.

Whatever may be the cause of your suffering — weak or broken down arches, weak ankles, painful heels, crooked or overlapping toes, excessive perspiration, corns, callouses or bunions—you can rid yourself of it permanently and quickly.

On the above date a Foot Comfort Expert from the Staff of Dr. Wm. M. Scholl, will be at our store. He is thoroughly trained in Dr. Scholl's methods of foot correction and he will make Pedo-graph impressions which reveal the exact nature of any foot trouble, and demonstrate how the correct Dr. Scholl Appliance or Remedy will relieve you.

FREE SAMPLES

Send in and get a free sample of Dr. Scholl's Shoe-pads for Corns. They give instant relief and remove the cause—strain and pressure.

Dr. Scholl's Shoe-pads correct faulty walking and standing, and prevent crooked and run-over heels. Absorb shock. Saves repair bills. 6¢ per pair.

Dr. Scholl's Shoe-pads give instant relief from painful corns. Thin, flexible, antiseptic, protective, healing, safe and sure—35¢.

Light Pierces Fog

Rainbow Super-Beacon Light Can Penetrate Mists

Raymond R. Machlett, of New York, son of R. H. Machlett, one of the leading X-ray experts in America in the early stages of its development is demonstrating his rainbow super-beacon light, which penetrates fog and makes possible airplane landings in bad weather.

The light, produced by devices invented by Mr. Machlett, has been exhibited at Hadley and other aviation fields.

"We have demonstrated that this light can be seen many miles away, perhaps fifty," said Mr. Machlett. "It is a form of electric illumination without a filament. It is a 'cold light,' or produced without appreciable heat, by passing an electric current through rarefied neon gas. The color is an unusual orange red, of 10,000 candle power. On very favorable days one at Sandy Hook was seen fifteen miles.

Government agencies are manifesting interest in Mr. Machlett's process and the devices beside them. The Bureau of Standards made a favorable report on the light.

Cairn Unveiled

Where First Party Of Mounted Police Entered Edmonton Over Fifty Years Ago

Unveiling of the cairn in the grounds of Fort Saskatchewan Jail, which marks the site of the original buildings erected in October, 1874, by Col. W. D. Jarvis and 20 non-commissioned officers and men of the first party of Royal North West Mounted Police to enter the Edmonton district, was made recently by Major-General Greisbach, C.B., C.M.G., D.S.O., in the presence of a large gathering of old-time members of the famous force and citizens of the town.

Will Not Have Telephone
The Claims Division of the general government accounting office at Washington has 500 employees and not a single telephone. S. B. Tulloss, chief of the division, says its business is best transacted by correspondence, but his policy has drawn fire from many who criticize the slow methods employed.

To Meet At Moose Jaw

Advice has been received by the Moose Jaw Board of Trade that the Union of Saskatchewan Municipalities has decided to hold its 1928 annual convention in that city.

No earthly tax dodger need hope for a clear title to a mansion in its way, but a hungry man can't make a satisfactory meal on it.

CANADIAN FARMERS TO VISIT DENMARK

Canada's first farmers' tour to the Old Land now being organized by the department of agriculture of the Canadian National Railways, is to go overseas January next. In addition to a tour of England and Scotland,

for a study of agriculture and marketing there, the farmers party will also visit Denmark, for a special study of co-operative marketing in the land of its birth.

The pictures above show scenes in Copenhagen, Denmark's capital,

where the farmers will spend a day or two in sight seeing, and also shows a typical Danish rural scene. During the visit to Denmark the farmers will see the famous people's high schools, and also the co-operative bacon factories.

SUNDAY SCHOOL LESSON

AUGUST 7

DAVID SPARES SAUL

Golden Text: Be not overcome of evil, but overcome evil with good. — Romans 12:21.

Lesson: 1 Samuel 28.

Devotional Reading: Romans 8:31-39.

Explanations and Comments

I. Saul Seeks David's Life, verses 1-4.—David had taken refuge in the Wilderness of Ziph, and Saul pursued him with three thousand men. Through spies David learned of his coming.

II. David Spares Saul's Life, verses 5-12.—David came upon the place where Saul was encamped, and found Saul asleep surrounded by his followers within a barricade made by encircling wagons. David returned to his own men and asked, "Who will go down with me to Saul?" The proposed exploit must have appealed to all of them. Abishai, the son of David's sister, returned with David. They found the king still sleeping within the barricade of wagons, with his spear, the symbol of royal authority stuck in the ground at his head. "God hath delivered up thine enemy into thy hand this day," said Abishai to David, as he begged permission to kill Saul with his own sword. But David forbade. "Who can put forth his hand against Jehovah's anointed and be guiltless?" he asked. There was a sacredness attached to Saul's office, and though David could not honor the man, he could honor the king.

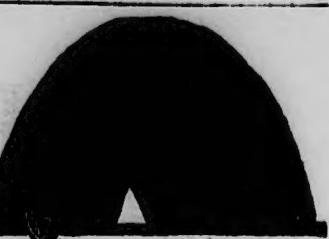

"We honor in our soldiers, not their worth as individuals, but the patriotic valor with which they fulfill their duty; should we not honor in our rulers, whatever their individual worthiness, the offices they represent?"

With a solemn oath, "as Jehovah liveth," David declared that God would carry out his own purpose; Saul should meet his death as God willed, not as he, David, willed; Saul would die by a sudden stroke, or meet his death in battle (as he eventually did); God forbid that he should kill him. "It will be remembered that in the play of Macbeth, Macbeth starts upon his tragic career when the witches suggest to him that he is to be king. In the play the witches stand for supernatural forces. Macbeth can see no way of fulfilling the destiny predicted for him except through violence. The story of David is even profounder in its moral significance than the story of Macbeth. From a source which stood to the Israelites as supernatural, David, too, learned that he was to be king but his spirit was large enough to turn away from the course which to one of the Macbeth type would have seemed the sure road to the fulfillment of destiny."—Bishop McConnell.

Taking the spear which was at the king's head, and the curse of water as proofs of their visit, the two departed, and no one knew of their coming.

Factory Doctor:—There's nothing wrong with you but laziness.

Tired Hand: Wot's the Latin for that, sir, so's I can tell the foreman?

Things Worth Knowing About Firestone Gum-Dipped Tires

Firestone pioneered, developed, tested and placed on the market the Balloon Gum-Dipped Tire—the genuine FULL-SIZED Balloon Tire.

With but half the usual air pressure, these tires are very soft and yielding. They absorb the holes, ruts and bumps in the road. They cushion the car and passengers from shocks and vibration.

Firestone Gum-Dipping—by which each fibre and strand of cord in the tire is impregnated and coated with pure gum—adds the extraordinary strength and flexibility which makes the Balloon construction practical.

Firestone Dealers are kept up-to-date on tire development and service—continually progressing and improving their ability to serve you better and save your money. See the nearest Firestone Dealer and let him handle your requirements.

Grain Exchange Radio Station

BUILT AT YORKTON FOR DISTRIBUTION OF MARKET PRICES

Radio Station "C.J.G.X." which is being built at Yorkton, Sask., by the Winnipeg Grain Exchange, for distribution of market prices and reports, is now nearing completion. The station building and steel towers have been finished and a studio furnished in the Collacott Block. Engineers of the Canadian Marconi Company are now at Yorkton installing the broadcasting equipment and it is expected that the station will be in operation some time during the second week of August.

With the establishment of this broadcasting station, the Winnipeg Grain Exchange will inaugurate a service of disseminating market prices and information direct to the farmers, in a more efficient way than has heretofore been done in the West. It is understood that in addition to the closing market prices of the day, the opening of the market and mid-session-prices will be broadcast as well. The station will also provide musical programmes and other classes of entertainment at regular times on week nights, details of which will be announced later.

Complete in itself, Mother Graves' Worm Exterminator does not require the assistance of any other medicine to make it effective. It does not fall to do its work.

Has Innate Terror Of Water

Had Noah's Ark sunk a hundred feet before it scraped bottom, man alone of all the animal passengers would have had to exercise an acquired skill to reach shore and safety. For man alone is incapable until he fights off his innate terror of the water and learns to swim.

Every person drowned through inability to swim is a victim of indifference. The parents, with half an opportunity who do not teach their boys and girls to swim are inviting destruction of the most precious fruit of their living.

Paring a corn is both risky and ineffective. It is much better to use Holloway's Corn Remover and eradicate them entirely.

Neighbor: Why do you whip your little boy? It was the cat that upset the vase of flowers.

Parent: I can't beat the cat. I belong to the S.P.C.A.

PAINTED FIRES

BY NELLIE L. MCCLUNG

COPYRIGHT, CANADA, 1925

CHAPTER V.—Continued

The girls agreed, and so it came about that Helmi Milander got her first invitation to a party. She was in the basement, cleaning out Miss Abbie's fruit cellar, when the invitation came. Two girls both dressed in the pleated skirt and middy she so much admired, stood at the back door asking to see her. Lucy Powers was the speaker, and the invitation was properly given. The only difficulty was in the fact that Helmi did not understand. Miss Abbie received the invitation and undertook to see that Helmi was present.

The basement of Young Methodist Church is the ordinary church basement, reached by a stairway that is worn silvery and gray by the passing of many feet, but to Helmi that September evening when two girls came for her and took her arm to conduct her thither it was a palace of enchantment.

They proceeded at once to the lower room, where small parties were held, and here, due to the decorating committee, opened a scene of loveliness that made Helmi catch her breath. Autumn leaves made of tissue paper ran in festoons from the electric fixtures over the table to each corner of the room. These were the Autumn decorations made by the girls at one of their meetings, and would later be replaced by the Hallowe'en yellow and black cats, witches and pumpkins. A stone crock filled with crimson and purple asters stood in the middle of the table, and from it there went out to each plate ropes of smilax from Lucy Powers' father's greenhouse. A broad band of Autumn leaf crepe paper ran down the middle of the table, and at Helmi's plate was a hand-painted card with the Beaver and Maple Leaf. On it was printed "Welcome to Canada." The streamers of Autumn leaves above the table made it easy for Helmi with her quick imagination to believe the table was spread in some sunlit glade under the golden and crimson foliage which in a frolicksome velvety wind, might come falling gently down.

The table sparkled with color—salads, ornamented with white and yellow daisies (hard boiled eggs); red flowers and green leaves (petals of beets and leaves of lettuce); platters of cold meat edged with nasturtium leaves, with velvety red blossoms peeping through, and jellies, amber and yellow, showing geometric designs of oranges and bananas securely and mysteriously suspended.

The crowning glory of the table—positive proof that it was a real party—was the high sherbet glass filled with iced orange juice, white grapes

RESTORED TO GOOD HEALTH

Mother of Eleven Children Praised Lydia E. Pinkham's Vegetable Compound

Her Interesting Experience

Buckingham, Quebec.—"I am the mother of eleven living children, and my baby is five months old. I am only 38 years old and I have taken Lydia E. Pinkham's Vegetable Compound for weakness and my nerves. I knew of it from my sister, Dame Edmond Bellefeuille of Ramsayville. For five years I

was in misery and was always ready to cry. Now I am so happy to have good health. My daughter, who is 18 years old, has also taken it and will be happy to recommend it to all young girls."—Dame WILLIAM PARMENT, Box 414, Buckingham, Quebec.

Why suffer for years with backache, nervousness and other ailments common to women from early life to middle age, when Lydia E. Pinkham's Vegetable Compound will give you relief?

In a recent country-wide canvass of purchasers of Lydia E. Pinkham's Vegetable Compound, over 250,000 replies were received, and 98 out of every 100 reported they were benefited by its use.

and grapefruit, with a red cherry on top riding at anchor! One at each plate!

Helmi breathed ecstatically as she gazed. Her cup of happiness was full. In addition to the gaiety around her, she had the exquisite rapture of knowing she was suitably dressed. The very day the invitation came Miss Abbie had taken her down town and bought her a pleated skirt, a middy and a red tie. She was dressed just like the others.

Helmi wondered if this is what Heaven would be like. She had some vague ideas on the subject of heaven which had come to her in her busy, crowded life as a child. She believed that in Heaven one's boots would always be new and squeaky; that one would sleep alone, and that one would always feel stylish.

Helmi felt very solemn about coming to the church to eat. It was queer to be asked to have supper at God's house. To Helmi, God was a terrible person, whom people only thought of when some one died, or in thunderstorms, floods, famine or sickness.

The God she knew was not concerned about suppers or good times. He looked down with terrible burning eyes, seeing everything from His white throne in the sky, and could wither bad people with one scorching blast. Helmi now that, for was not Peter Saari found blackened and dead beside his plow, though his horses were not touched, just because he had cheated the storekeeper? And it was a wonder He did not smite Peter's wife and children, too, because they cried so. Peter had been kind to them. Helmi had always thought God had been pretty quick and hard on Peter; but people must not say what they think when it is about God.

And now here she was in God's house for supper, and around her were fifteen girls of her own age, all making her welcome, and everyone as happy as if they weren't at church at all. And they sang some words at first to welcome her, that had her name in them, and they looked at her when they sang:

"How do you do, Helmi girl, how do you do?"

"Is there anything that we can do for you?"

"We are glad you've come to stay in this land of work and play."

"And we welcome you today,

Helmi, girl!"

Miss Rodgers talked a little then, and the girls all put their heads down, and Helmi knew it was a prayer, and she had queer prickles all over her. Then they began to eat, and by watching the other girls Helmi managed very well. After the fruit cocktail with the cherry (and Helmi had both a red and green cherry in it), there came scalloped potatoes in a lovely glass dish, and a glass cover, too, with an acorn handle; and cold pork and beef, and pickles, and fresh biscuits that Lucy Powers had made herself at school. Lucy managed to get this over to Helmi through the medium of her meagre English, supplemented by signs. And for dessert there was ice cream, both pink and white, with nuts and cake and coco.

And the dishes were beautiful, with green ropes and pink roses, and somehow it seemed to bring God nearer than anything to know He liked pink roses on His dishes. They must have a nice God in Canada!

When the supper was over the girls all stood up and sang with hands clasped. Helmi stood between Lucy and Hattie. The music was strange, the words unintelligible, but the hand clasp was warm and friendly. Helmi understood it and thrilled with a great new passion. In God's house she had been a guest and had found friends.

The leader presented her with a Little Testament and a Blue and Gold Book which had her name in it, right on the front page. Lucy showed her some words and said them to her over and over again, and although Helmi did not know what they meant, she learned to say them, and because these words were vibrant with youth and hope and eager aspirations they fired her young heart with a great desire to live proudly and serve hum-

Clean to handle. Sold by all
Druggists, Grocers and
General Stores

bly. She belonged now, she had her own gang. She wanted to do something for God to show her love for Him, for her new country and these new friends.

Very early the next morning, when the crystal dawn, cool and sweet, was stealing into the sleeping porches on Chestnut Street, there came stealthily a young girl with a scrubbing pail and brush to the locked door. Trying it and finding it locked, she went round to one of the windows in the tower room, the one which had been just above her head. It yielded to her careful touch, and in a moment she and her pail had gone in.

That morning when the janitor came grumbling to his task a strange scene met his eyes. From the tower room arose the damp incense of a well-scrubbed floor, polished windows, shining woodwork — hardy, honest smell, clean soapy, satisfying.

"Maybe I was wrong about them youngsters; they've got some religion after all," he said.

As Helmi went around her work the next day she sang the tune of the song, but she could not quite get the words. Miss Abbie phoned to Lucy Powers to come over and tell her what it was that Helmi was singing. Lucy taught the words to Miss Abbie, who, when the Ladies' Aid met at her house the next week was very proud to have them hear Helmi sing: "She has only been one night at the Club," said Miss Abbie proudly, "and look what she has learned!" Miss Abbie knew very well the milksister's sister would think that the girls should have taught her "Abide With Me" or "Sowing in the Morning," or something like that, but she was prepared to tell Miss Terry that times were changing.

(To Be Continued.)

Will Be Great Advantage

Steam Cooled Auto Engines Possible
In Few Years

We'll have steam-cooled engines in our automobiles within a few years, is the prediction of Prof. Edward P. Culver, of the Princeton School of Engineering.

There will be no change in the engine, except the transfer of the hose, that enters the present radiator at the top, to the bottom, and the conversion of the radiator from a cooler into a steam condenser.

The greatest advantage of steam-cooling, says Prof. Culver, is it maintains the engine at a constant and most efficient running temperature, no matter what the temperature is outside.

We cannot hear a sound if it has less than about thirty or more than 40,000 vibrations a second.

ECZEMA LASTED TEN YEARS

On Knees, Would Itch and Burn. Cuticura Heals.

"From the time I was a small child I was troubled with eczema on my knees. It broke out in a rash and would itch and burn so that I would scratch it and cause eruptions. My stockings aggravated the breaking out, and I lost my rest at night on account of the irritation. Later it broke out on my arms. The trouble lasted about ten years."

"A friend recommended Cuticura Soap and Ointment so I purchased some, and after using one box of Cuticura Ointment and two cakes of Cuticura Soap I was completely healed." (Signed) Miss Kathleen O'Connell, Port Dufferin, N. S.

Rely on Cuticura Soap and Ointment to keep your skin clear.

History Of Aviation

The Evolution Of Flying From Its First Inception

The first to fly:
—in a dirigible balloon was Henry Clifford in 1852. It had a three-horse power steam engine.

—in an aeroplane driven by an engine was Orville Wright, on Dec. 17, 1903. He used a 16-horse-power engine.

—ten miles in an aeroplane in Europe was Delagrange on June 22, 1908, at Milan.

—an hour in an aeroplane was Orville Wright, on Sept. 9, 1906.

—over 1,000 feet high was Orville Wright, on Oct. 3, 1909, at Berlin.

—across the English Channel was Blériot in a monoplane on July 26, 1909.

—across America from the Pacific to the Atlantic, over 4,300 miles, was Rodgers, 1911.

—across the Atlantic in a seaplane was Commander Read, R.S.N., in 1918.

—direct from Newfoundland to the British Isles in an aeroplane were Alcock and Brown, in 1919.

—an airship across the Atlantic were General Maitland and Commander Scott, in the British R-34.

—direct from the United States to Europe in a monoplane was Colonel Lindbergh in 1927.

Enthusiastic Over Farming In the West

Representative of Norwegian Government Favorably Impressed With Conditions

Capt. K. S. Irgens, of Oslo, Norway, who made a tour of Western Canada along the lines of the Canadian National Railways as the representative of the Norwegian government, for the purpose of determining the advantages of this country for Norwegian farmers, has returned to the East to pursue his investigations. The captain expressed himself enthusiastically regarding the prosperous and progressive conditions he found wherever he went, and took away with him favorable impressions of the West generally. He is likely to desert the sea for a farm somewhere in one of the Western provinces. He met many of his countrymen during his trip, and everywhere found them doing well and very contented with the land of their adoption.

The Greatest Investment

World Buys On Information Obtained From Newspaper Advertising

Investments in newspaper advertising last year amounted to \$235,000,000. That was a gain of \$15,000,000 over the previous year. Big figures, those. But remember that the world buys on information. It travels because it knows when and where and how—through advertisements. It builds because it knows how—through advertisements. It dresses through thoughts suggested by advertisements. And so on through the activities of life. Think of what the world would be without newspapers. Think of what the newspapers would be without advertisements. Great is advertising, and the greatest of all advertising is newspaper advertising.—The Fourth Estate (New York).

Minard's Liniment for burns.

For Restless Babies

Warm weather is a trial to both mother and babe and the task of keeping the little one in perfect health is often very difficult. Probably the matter of proper food for the infant is of greatest concern to the average mother.

If you cannot nurse baby and it does not gain upon the breast milk give him Borden's Eagle Brand Milk—the food that has successfully reared hundreds of thousands of babies. Easy to prepare—just add boiled water as directed.

In this paper from time to time you will find an advertisement of Borden's Eagle Brand Milk, a food that has raised more healthy babies than all the prepared infant foods combined. Cut out the advertisement and mail it to The Borden Company Limited, Montreal, and they will send you, free of charge, instructions for feeding your baby, and a Baby Welfare Book and Baby Record Book. Or, just write the Company mentioning this paper and they will be sent.

Minard's Liniment for cuts and bruises.

Eagle Brand has raised more healthy babies, since 1857, than all other infant foods combined.

Little Helps For This Week

Teach me to do Thy will, for Thou art my God.—Ps. cxliii. 10.

Small service is true service while it lasts,
Of friends, however humble, spurn not one,
The daily, by the shadow that it casts,
Protects the lingering dew-drop from the sun.

—William Wordsworth.

We can all be servants of God wherever our lot is cast; but He gives us different sorts of work, according as He fits us for it and calls us to it.

Service is our destiny in life or in death. Then let it be my choice, trying to serve the living, and be fretted uncomplainingly. If I can assure my self of doing service, I have my home within.—George Meredith.

SAVE THE CHILDREN

In Summer When Childhood Ailments Are Most Dangerous

Mothers who keep a box of Baby's Own Tablets in the house may feel that the lives of their little ones are reasonably safe during the hot weather. Stomach troubles, cholera infantum and diarrhoea carry off thousands of little ones every summer, in most cases because the mother does not have a safe medicine at hand to give promptly. Baby's Own Tablets relieve these troubles, or if given occasionally to the well child they will prevent their coming on. The Tablets are guaranteed by a government analyst to be absolutely harmless even to the new-born babe. They are especially good in summer because they regulate the bowels and keep the stomach sweet and pure. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Will-Hamlin Medicine Co., Brockville, Ont.

Produced In Every Province

Alfalfa can be grown over the widest range of climatic conditions of any legume yet grown in Canada. It is now being produced in every province from the Atlantic to the Pacific.

It Testifies for Itself.—Dr. Thomas' Electric Oil needs no testimonial of its powers other than itself. Whoever tries it for coughs or colds, for cuts or contusions, for sprains or burns, for pains in the limbs or body, well know that the medicine proves itself and needs no guarantee. This shows why this oil is in general use.

Millions From Cowdray Estate
Eight million dollars will go to the Exchequer as death duty on the \$20,000,000 estate of Viscount Cowdray, who died in London, May first.

DYSENTERY WAS SO BAD BECAME ALARMED

Mrs. Wallace Pepper, R.R. No. 6, Simcoe, Ont., writes:—"Last summer I was very bad with dysentery. I lost my appetite, and had such severe pains in my abdomen they made me very faint. I passed blood which greatly alarmed me, so I hurried to the doctor. He told me the quickest way to get rid of it would be to take

"I took only part of a bottle and was completely relieved. I feel I cannot recommend it too highly."

This wonderful bowel complaint remedy has been on the market for the past 80 years; put up only by The T. McBurney Co., Limited, Toronto, Ont.

LOCAL AND GENERAL

Mrs. W. J. Hillyard, Mrs. J. W. Phillipson, Mrs. W. Derby, Mrs. (Dr.) Evans, and Jim McGhee's family have all returned within the last few days from Sylvan Lake.

E. K. Cullen has purchased a Chevrolet coach from Adshead garage, and sedans have been bought by Hosegood Bros., W. Waldron, and J. W. Cameron.

Mrs. Thos. O'Hara of Chicago, formerly Miss Hazel Butts of Didsbury, is visiting Mr. A. C. Fisher.

Mr. and Mrs. R. Barrett and family returned from their trip south on Tuesday evening.

H. W. Chambers and A. W. Austin have each purchased a Nash car during the past week from Fisher & Edwards, local agents.

Miss Ethel Burgess of Calgary is visiting with Miss Anna Mueller.

The W.C.T.U. will meet at the home of Mrs. H. Reiber, the afternoon of August 10th, at 2 o'clock. This being our annual business meeting we would like to see every member there.

A foot comfort expert from Toronto will be at J. V. Bersch's store on August 9 and 10. Get a FREE examination of your feet. Phone for an appointment early and you will not have to wait to have your feet examined.

Will the person who borrowed the boiler and cups from the lobby of the United Church and neglected to return the same, please do so at once and pay for this advt.

On Wednesday afternoon, July 27th, a miscellaneous shower was held at the home of Mrs. H. C. Rennie in the honor of Bernice McMow who has been a member of the local telephone office staff for the past eight years. At five o'clock a very palatable lunch was served to the thirty guests present, by Mesdames Rennie, Smith and Durrer, after which the bride-elect was presented with a basket full of lovely gifts, to which she responded with a few well-chosen words.

The U.F.A. convention, which was to have been held in Didsbury to-day, has again been postponed on account of counter attractions, and will now take place on Thursday, August 18th. All members please note.

Back from the Country Districts golf tournament held last week at Calgary. Jas McDougall, the newly-elected president of the Association, expresses himself in enthusiastic terms of the fine sports-

manship, the genuine fellowship and friendliness in general existing among those who competed. From first to last the tournament was thoroughly enjoyable, keen interest being displayed by every competitor. Representatives attended from all over the province, and the arrangements made for their reception and entertainment by the Calgary Herald were perfect.

This competition as is now fairly well known, originated on the initiative of the Calgary Herald, and year by year is proving increasingly popular with country districts. The object, stated J. H. Woods, managing director of the Herald, at a banquet on Saturday night, "is to arouse and stimulate interest in golf in country districts, to bring the country clubs together and in closer touch with urban golfers."

On Saturday, August 6th, Lillian Gish in "La Boheme" supported by an all-star cast, will be shown at the Didsbury Opera House.

On Wednesday, "Rough-House Rosie," featuring Clara Bow, will be shown.

Among the interesting features of our fair day was the educational film shown at Opera House entitled "The Making of Twine." The film went very thoroughly into the manufacture of McCormick-Deering Binder Twine from the time the twine fibre was cut in the fibre plantation until it was made into twine to tie the world's crop.

The finished product was also on display in W. G. Liesemer's window, who handles this twine here. Messrs. Tourigny and Barber, representatives of the International Harvester Company who were responsible for the picture being here are to be complimented for its success. Pictures of this kind are what we need.

The 1927 Massey-Harris 5 B Binder is the best Binder the Company have ever built. 22 roller bearings make the easiest running Binder. Many improvements such as new improved shear carrier, self-aligning rollers, all steel Bull wheel and steel reinforced decks make it up to date and superior to any other make on the market. Inspect the binder at Fisher & Edwards warehouse before buying your new binder.—Advt.

At a meeting of the Country Districts Golf Association held at Calgary last week, James McDougall was elected president of the Association and J. H. Woods of the Calgary Herald was appointed honorary president. G. C. Clarke of Didsbury was appointed convenor of District 16.

Is your subscription due?

WEDDING.

A quiet but pretty wedding was solemnized at the home of Mr. and Mrs. W. Stock on July 23rd, when their youngest daughter, Olive, was united in marriage to Mr. John Boorman, of Didsbury. Rev. Hayes, of Didsbury, officiated. The bride, who was given in marriage by her father, was lovely in a gown of maize and cream georgette, and carried a bouquet of roses. She was attended by her sister, Miss Elsie Stock, while Mr. B. R. Stock, of Hanna, assisted the groom. The wedding march was rendered by Mrs. B. R. Stock, while Little Betty Boorman strewed roses in the path of the bride. Miss Elsie Stock sang that beautiful solo, "O Promise Me," accompanied by Miss Mayra Buckton.

After the ceremony the wedding breakfast was served under the supervision of Mrs. Seanes, by a group of six C.G.I.T. girls of Didsbury, where Miss Stock has resided and acted as teacher for the past four years. Mr. and Mrs. Boorman left by the evening train for the coast to spend their honeymoon at Vancouver and Victoria. On their return they will reside in Didsbury.—Olds Gazette.

A unique musical event will take place at the Chateau Frontenac, Quebec, May 20 to 22, when a folk song and handicraft festival will be held. The songs will be sung by local singers, famous for their knowledge of traditional airs of Old Quebec. French-Canadian folk songs are gaining in popularity throughout the country since so many of them have been translated into English by John Murray Gibbon, of Montreal. Charles Marchand, one of the outstanding interpreters of these old-time songs, will figure prominently at the coming musical festival.

President Coolidge's natal State Vermont has been brought vividly to the attention of the Middle West, Ontario and Quebec by a special train known as the Vermont Maple Sugar Special, which has been touring the western states and which visited Ontario and Quebec in the latter part of April, carrying special exhibit of Vermont products and also a car of Canadian Pacific exhibits. Governor John E. Weeks, Vermont's chief executive, and Mrs. Weeks, together with his staff, the United States Senator for Vermont, and many other State legislators and representatives of leading business interests, were aboard the train during its extended tour.

Sidelights on the Chinese situation were thrown by travellers from a trip around the world, who arrived at the Windsor street station in Montreal recently, on the last lap of their journey. They were: Harrison Williams, well-known public utilities financier of New York; Paul Cravath, general counsel of the Missouri Pacific Railroad; and Colonel R. B. Worgan of the Indian army, who had joined the trip at Madras. Mr. Cravath was in Shanghai, his arrival corresponding with the capture of the city by the Nationalist forces. Mr. Cravath stated that he had not heard a shot fired on that day, and would not have been aware he was in a city taken in open war if he had not been informed of the fact.

Here and There

The Canadian Pacific liner "Empress of Australia," which played so active and conspicuous a part in rescue work after the Tokio earthquake, is now transferred from the Oriental to the St. Lawrence route.

The output of coal from Canadian mines during April last was 45 per cent. greater than the average for April in the past five years, the figure for April last being 1,312,875 tons, as against a five-year average of 907,238 tons.

Over 30 prominent British bowlers arrived in Canada on the Canadian Pacific liner Melita coming to tour this country at the request of the Dominion Bowling Association. Test matches will be played at numerous points across the Dominion.

Extension of trade between the United Kingdom and Canada is the professed object of Theo. Feilden, director-general of the Empire Trade League and editor-in-chief of the Empire Mail of London, who arrived aboard the Canadian Pacific liner "Empress of Australia," re-

cord wool clip and wheat output for the past year have placed Australia in a condition of prosperity that was never so great as at present, according to J. M. Myres, correspondent of the London "Daily Telegraph," when interviewed at the headquarters of the Canadian Pacific Railway in Montreal recently on his way from the Commonwealth to England. He estimated that the exports from Australia had probably reached a record figure.

The farthest north settlement in the world, Bache peninsula, is cheered by radio programmes. Situated in the Arctic Ocean, 750 miles above the Arctic circle, this far-flung outpost is situated ten and one-half degrees off the North Pole. Here there is a post of the Royal Canadian Mounted Police, the garrison consisting of Sergeant Joy, two constables, and a few Eskimos. From November to March they do not see sunlight. Their one great pleasure is in listening to radio programmes from the outside world.

Municipal Co-operative Hail Insurance

Saved the farmers of Alberta over \$3,250,000 in the last eight years, and is the only Hail Insurance provided at cost.

Out of every dollar of premium charged during the period mentioned, 84 1/8 cents was returned to the insured in losses, 7 7/8 cents paid all cost of administration, and eight cents was added to the Reserve Fund now amounting to \$770,000.00, which belongs to the farmers.

Why not insure your crops with insurance that gives protection from date application is received until Sept. 10th.

For full information see your Municipal Secretary.

Here and There

Col. J. S. Dennis, chief commissioner of the Department of Colonization and Development, Canadian Pacific Railway, predicts a much larger immigration movement to Canada this year than last. He explained that the reported congestion of farm workers in the western towns was transient and not likely to recur.

"The Royal York" is the name chosen by President Beatty for the new Canadian Pacific hotel to be erected at Toronto. It associates the new hotel with the early history of that city.

Canadian Pacific Railway engineers, now busy with their preliminary survey of the projected railway to Chicoutimi and the Lake St. John district, are at present studying the question of a terminus site.

An aviation field available to commercial flying is to be prepared at Lethbridge, Alberta. The new field, which will be wide enough to allow ten planes to lie abreast, will also be used for aerial mail service.

A large party of professional men will leave for a tour of the west over Canadian Pacific lines, on the third annual tour conducted under the auspices of the University of Montreal. The party will spend about two weeks in the Rockies.

The second regular journey to Canada of the Canadian Pacific steamship "Empress of Australia" will be distinguished by the presence on board of that ship of the Prince of Wales and Premier Stanley Baldwin, of Great Britain.

Excellent progress is being made with the branch-line programme projected by the Canadian Pacific Railways for the three Prairie Provinces this season, according to D. C. Coleman, vice-president in charge of western lines. The work of construction, he said, is progressing rapidly and every effort is being made to have the new lines in operation by the time the fall crop movement begins. Keeping pace with the rising tide of land settlement the company expects to open the line from Lloydminster to Clan Donald on July 15. This branch is of particular interest as it serves the colony of Hebrideans located in the Clan Donald district. These settlers are doing remarkably well and have forty per cent. of their land broken.

Trail-Riders to Hold Fourth Annual Pow-Wow

1. Riding through the water at the sandy edge of a lake is a cool relief for the horses. 2. Mount Assiniboine, the objective of the Trail Ride. 3. Scene of a Trail Ride Pow-wow in Yoho Valley.

"TRAIL RIDERS." The very sound of the words brings the tang of woodland fire smoke, the crackling of burning twigs, the musical running and tumbling streams slipping hurriedly down the mountain side to offer an early morning drink to thirsty campers. Is there anyone in the world sufficiently prosaic not to be attracted by the fascination of that word "trail?" It suggests mysteries, an elusive something lying always round the next bend of the road, beyond the next mountain peak.

One part of Canada in particular is threaded with the world's most fascinating trails, to be followed through the world's most lovely scenery, day after day, each to its ultimate termination. That is the arena indigenous to Banff and Lake Louise, in the heart of the Canadian Rockies — a veritable land of Heart's Desire for the man or woman with the love of Nature and the explorer's hot blood in their veins, where every trail leads to beauty, peace and radiant health.

Off the beaten track of the luxury loving rocking chair tourist, directly south of Banff is Mount Assiniboine, the objective of this year's trail ride. This majestic mountain towers many thousands of feet above the snow-fields, and is clearly reflected in the surfaces of the lakes that lie at its base. No white man reached the base of this noble pyramid until 1893, when R. L. Barrett, an American mountaineer,

climber, and Tom Wilson, of Banff, made their way to its foot by way of Simpson Pass, the route which the Trail Riders will take on their return trip this summer.

The fourth annual trail ride will leave Banff on Monday, August 1. The Commissioner of Parks has had cleared an old trail which leads through the wild canyon of Brewster Creek. The first night's camp will be by the head of this creek, and in the morning the riders will cross Assiniboine Pass to the Camp by the shore of Lake Magog, which holds in its turquoise depths the reflection of this great, stony, snow-crowned giant. The third day will be spent with the camp a base, allowing the Trail Riders to explore the surrounding lakes and foothills, or to do some climbing. The fourth day they will ride by way of the Valley of the Rocks, Golden Valley, Citadel Pass, Alpine Lakes and Meadows on the Great Divide to Sunshine camp. The Grand Pow-Wow will be held on Simpson Pass on the fifth day, and the party will ride home the following day by way of Henly Creek.

This year's ride is the most ambitious of any undertaken by the Trail Riders since the inception of the organization a d. from all indications, it will be one of the most successful. And no matter what wonderful pictures the imagination of the riders may conjure up, the beauties of the trip are sure to be lovelier.

Canada's Next Stage Of Development

There are many countries with larger populations, greater accumulations of wealth, and much more highly developed in an industrial sense than Canada, but already this Dominion has achieved fifth place among the commercial nations of the world. Since the war, and more especially during the past few years, the trade of Canada has enormously expanded—the percentage of growth far surpassing that of any other country.

It is a pertinent question to ask: Can Canada retain for itself the proud position already attained, and is it possible for this Dominion to move steadily forward from fifth place to fourth, to third, and ultimately to the very front rank?

Judged from the standpoint of its geographical position on the world's highway between Europe and the Orient, or judged by the extent and variety of its natural resources, whether of the field, the forest, the mine, the fisheries, and water-powers, the answer can be given by an emphatic affirmative. In all these respects, Canada does not occupy a secondary position to any country on earth.

Canada practically controls the world's supply of such essential commodities as nickel and asbestos. It is now, in its infancy, the world's greatest manufacturer of newsprint and the world's greatest exporter of wheat. It has steadily increased its gold output until now it ranks as the world's third largest producer.

Notwithstanding all these advantages, can Canada ever hope to challenge the position of Great Britain and the United States as the world's greatest commercial nations, and, if so, what is essential to achieve that result?

Not only in order to attain a still higher and stronger position, but to retain what has already been won, it is necessary that Canada should take certain advance steps. Up to the present time this country has been chiefly concerned with those domestic problems and internal affairs involved in the early settlement and development of the country from a raw territory into an organized state. Attention has been devoted to matters of transportation, to the first stages in the development of natural resources, to laying the essential foundations of any country. This pioneer stage is passing, Canada has found itself, and its future now depends upon the place it can make for itself among the nations in finance, in trade and commerce.

The development of our wealth of natural resources must be the basic foundation upon which to erect our future national structure. These resources constitute the Dominion's greatest economic asset, and their development should proceed along the most approved scientific lines in order that there may be a minimum of waste. It is not sufficient that we cut down forests and sell lumber and pulpwood, or that we dig nickel, or asbestos, or gold out of the ground. We must utilize these resources to their fullest extent in the building up of Canadian industry, and, in so doing, also utilize every possible by-product that can be extracted from them.

In Great Britain, the United States, Germany, huge sums are expended annually in scientific research and elaborately equipped laboratories are provided for the prosecution of such work. Great Britain last year expended \$25,000,000 and the United States \$50,000,000 on research. If Canada is to hold its own, and is to go forward to greater triumphs, it must now become equipped in like manner. The expenditure of a few million dollars may easily result in discoveries and improved methods which will yield tens, and even hundreds of millions to the Dominion.

Canada is an up-to-date country, but in order to retain that reputation it must follow the most up-to-date methods all along the line. It is not sufficient that goods "made in Canada" or articles "produced in Canada" be good; they must be the very best the world can offer.

Coupled with the maintenance of scientific research, the utilization to the utmost of our own natural resources, and the production of nothing but the best, the industrial and commercial interests of Canada must be alert and unite in the adoption of the most wide-awake and effective selling methods, and create the organization essential to command the confidence of the importing world that all contracts entered into can and will be filled to the letter and on the minute called for.

The proposals which the Minister of Trade and Commerce will, it is understood, submit to Parliament at its next session to provide for important expansions of the activities of the National Research Council, as well as the practical suggestions he has brought with him from England along the line of improved selling and marketing methods, should receive the most earnest consideration of the Canadian people and their whole-hearted support.

Sunburn.

Mix Minard's with sweet oil or cream, and apply. Quick and permanent relief.

W. N. U. 1692

Nature's Gentleman

"Thank you very much indeed!" beamed the well-dressed flapper in the bus as a workingman offered her his seat. "That was very kind of you."

The other blushed happily and gave a number of other males a hasty glare as he answered:

"Not at all, miss not at all. I know some men don't give up their seats unless it happens to be a pretty girl, but looks make no odds to me."

And everybody except the young girl smiled.

Supplying Milk For Chinese

Shanghai Company Purchases Cattle In British Columbia

Despite its political troubles and the menace of invading armies, the babies of Shanghai must have milk and British Columbia cows will supply it, as in the past.

For several years the Shanghai Dairy Company has been buying its stock in British Columbia and shipping it across the Pacific to join the big herds quartered in the pastures south of the foreign quarter. It is this company which supplies most of the dairy produce for the use of European families quartered in Shanghai.

G. T. Orchardson and Captain Grant, representatives of the Shanghai Dairy Company, are in British Columbia on another of their buying trips. They are at present in the Comox Valley purchasing dairy stock. They will buy several hundred head this year.

"Wars and revolutions are a nuisance, but there is nothing more insistent than a baby's demand for milk," said Orchardson. "We have got to meet the demand regardless of whatever else may happen."

A WEAK STOMACH

Can Be Strengthened Through the Use of Dr. Williams' Pink Pills

Wonderful is the process by which the chemistry of the body changes the food we eat into blood. And the whole of our well-being depends upon this being maintained day after day, year in and year out. Sometimes the process becomes faulty, and then food begins to poison the blood instead of feeding it. This is followed by all the pangs of indigestion, such as gas on the stomach, pains around the heart, often nausea after eating, and a dislike for all kinds of food.

The only way to overcome these troubles is to tone up the digestion so that you can assimilate all your food. To do this you have only to take Dr. Williams' Pink Pills. A short course of these pills will quickly tone up the stomach and banish indigestion. Here is a bit of convincing proof given by Mrs. Chas. Ladner, Ellerslie, P.E.I., who says:—"For some years I was a sufferer from stomach trouble. Everything I ate caused distress, sour stomach and belching. I could not eat meat or potatoes, and I grew weak and nervous. No medicine seemed to help me until I was persuaded to take Dr. Williams' Pink Pills, and these simply worked wonders. I took the pills faithfully for a couple of months by which time every symptom of the trouble disappeared, and there has not since been the slightest symptom of stomach trouble. No wonder I praise Dr. Williams' Pink Pills."

You can get these pills through any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Western Canada Dairy Convention

The Western Canada Dairy Convention, which includes all dairying interests in the four Western Provinces, will be held in the Hotel Saskatchewan, Regina, from February 7th to 10th next year. This Association will be hosts to both the inter-provincial gathering and the annual provincial dairy convention of Saskatchewan.

Miller's Worm Powders are a pleasant medicine for worm-infested children, and they will take it without objection. When directions are followed it will not injure the most delicate child, as there is nothing of an injurious nature in its composition. They will speedily rid a child of worms and restore the health of the little sufferers whose vitality has become impaired by the attacks of these internal pests.

Million Acres Irrigated

Irrigation is now being supplied to over a million acres of land in the west, according to the Department of the Interior, and surveys are being made of a number of additional projects which should bring the total up to 1½ million acres.

Mothers Value this Oil. — Mothers who know how suddenly crop may seize their children and how necessary prompt action is in applying relief, always keep at hand a supply of Dr. Thomas' Electric Oil, because experience has taught them that this is an excellent preparation for the treatment of this ailment. And they are wise, for its various uses render it a valuable medicine.

Our deepest sympathy is with the man of few words who is married to a woman who does a continuous monologue stunt.

DOES NOT AFFECT THE HEART

Safe → Accept only "Bayer" package which contains proven directions. Handy "Bayer" boxes of 12 tablets. Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monosaccharide of Salicylic Acid (Acetyl Salicylic Acid, "A. S. A."). While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

Radio Entertainers Well Paid

Some Get Hundred Dollars a Minute For Good Music

Does it pay to entertain radio fans? Here are a few figures dug up by the New York dramatic weekly, "Variety":

Toscanini, the Italian composer, who will direct the New York Philharmonic Orchestra on the air, will get \$1,500 for each concert.

Some hours, like the Maxwell, Eveready and Atwater Kent, are said to pay as high as \$100 a minute for a quarter hour of good music. The Ipana Troubadours and Ishman Jones Orchestra will play together at Atlantic City, for half a month, for \$12,000.

Each member of the Eveready Ringers gets \$200 for each hour he's on the air.

Minard's Liniment for scaly scalp.

Decrease in Butter Output

Saskatchewan creameries manufactured 1,661,687 pounds of butter in May. This is a considerable decrease compared with the output for the same month a year ago. The falling off is attributed to the cool weather which prevailed during the period.

Sometimes money talks, but more often it stops talk.

Asthma Can be Cured. Its suffering is as needless as it is terrible to endure.

After its many years of relief of the most stubborn cases no sufferer can doubt the perfect effectiveness of Dr. J. D. Kellogg's Asthma Remedy. Comfort of body and peace of mind return with its use and nights of sound sleep come back for good. Ask your druggist; he can supply you.

Real glory springs from the silent conquest of ourselves; and without that, the conqueror is naught but the veriest slave.

ALL 'ROUND BETTER THRESHING WITH THE WATERLOO Steel "CHAMPION"

These features of the Waterloo Steel "Champion" give you a lifetime of reliable service. Your threshing will be quicker, easier and better. Strongest frame made in any thresher. Hyatt roller bearings. Alemit Lubrication system. Improved construction in every part from feeder to blower. The Waterloo Steel "Champion" is Canada's finest and strongest thresher.

Seven sizes: 22x36; 24x36; 24x42; 28x48; 33x56; 40x62

BETTER SPIRIT NOW PERVERSES NAVAL PARLEY

London.—Hope that the tangle arising out of the Geneva naval conference will soon be unravelled is growing in official circles in the British capital. This is due largely to the statement made in the House of Commons by Sir Austen Chamberlain, Secretary for Foreign Affairs, outlining anew the whole British attitude toward the parleys and containing the declaration:

"There need be no difficulty in arriving at a temporary arrangement about the immediate future of cruisers building."

It was this question upon which the negotiations stalled. Sir Austen appeared in Parliament soon after Rt. Hon. W. C. Bridgeman, First Lord of the Admiralty, and Viscount Clegg, the chief British delegates to the naval conference started back for Geneva to re-open the discussions with the United States and Japanese delegates. The purpose of the Foreign Secretary's statement was to put the full weight of the British Government behind the proposals the delegates will make.

A second reason for the statement was to remove the misunderstanding which the British Government believes exists in the minds of many Americans regarding the British aims at Geneva. Although the statement was made at Westminster, and the United States was not mentioned, it was nevertheless admittedly intended for the unseen audience of the people of the United States.

The Foreign Minister informed the Commons that the British Government had even been charged with a desire to destroy the principle of sea power equality as between Great Britain and the United States, established at the Washington conference, and he added emphatically:

"There is no foundation for such suspicion."

He re-pledged the British Government to complete agreement with the two-fold purpose of the Geneva meeting as outlined in President Coolidge's invitation—reduction of naval expenditures, while maintaining national security.

Preparing For Flight

British Aviators Will Compete For Prize Of £5,000

Dublin.—Col. F. E. Michin, of the British Imperial Airways, and Leslie Hamilton, British air taxi owner, who are in the midst of active preparations for a trans-Atlantic flight, flew from Dublin to Clifden, Galway, to pick out a definite point for their hop off. They hope to leave about the middle of August in a Fokker monoplane.

The latest statement of the dyers' plate show that their first objective will be Ottawa, whence they will fly to London, Ont., and thence back to London, Eng., their desire being to win the £5,000 offered for that feat.

Receive Humane Medals

Hamilton, Ont.—Two westerners have been awarded bronze medals for heroism by the Royal Humane Association, according to an announcement made here. They are Laddie Jason, 14 years of age, Moose Jaw, who rescued two girls from drowning and who, a week before, had rescued a chum from a similar fate and Harvey Capman, for the rescue from drowning of Enid Price at Nakimo, B.C.

Noted Artist Dead

London.—Solomon Joseph Solomon, noted British artist who called attention to the need of camouflage in modern warfare and initiated it in the British army at the outbreak of the world war, died in London, July 27. He was born here 67 years ago. Among his many works are the decorations in the Royal Exchange and the House of Parliament.

Take Course In French

Quebec, Que.—Eighty women teachers of French, and ten or twelve men, are taking advantage of the new course in Oral French which is being held, for the first time, this year in the Sillery Academy, Quebec City. Department of Education.

Manitoba Wheat Pool

Fourth Annual Meeting Is Held At Brandon

Brandon.—The fourth annual meeting of the Manitoba Co-operative Wheat Producers Ltd., was opened in the city hall. Approximately 380 delegates and thirty-two visitors are registered, making this the largest meeting ever held by the pool.

The membership in the wheat and coarse grain pools July 15 was 18,758. A drive has commenced for renewals of the contracts that will expire in 1928, and while only a small territory has been canvassed, practically all the old members have again contracted as well as 520 new members.

For the 1925-26 crop the Pool operated 8 elevators. This year 30 were in operation and next year about 60 will be run by the Pool. In 1925-26, every unit showed a surplus varying from 1.09 cents to 6.75 cents a bushel; 1926-27 figures are not yet available.

The central selling agency which is the selling body for the three western pools, reports 28 agencies established in 15 different countries, and at present is considering the opening of a London office. The agency, the report states, has made its own market and sells nearly 80 per cent. of its grain outside the ordinary channels.

An Ontario pool has just been organized, with about 8,000 members, and will also sell through the Central Agency.

Wants Land For Air Field

Detroit Airplane Company Asks Newfoundland To Grant Tract

St. Johns, Nfld.—The Newfoundland government has been requested to grant a tract of public land near Harbor Grace on the North side of Conception Bay, for purposes of trans-Atlantic aviation.

Fred. Koehler of Detroit, representing the Stinson Aeroplane Company, petitioned the government to grant a piece of land near Harbor Grace to be used for two flying fields. On each site would be established a runway 300 feet wide and 4,000 feet long.

The fields, Koehler said, would be used primarily by the Waco Air Service Company of Detroit, which is sponsoring an attempt to fly around the world in 15 days.

Afterward, Koehler said, the flyers could alight on their East bound journey and also hop off for Europe. The fields would be used in all trans-Atlantic flights in either direction.

The government was considering the application.

Decrease In Value Of Creamery Butter

Although Canada's 1926 Production Higher Than Previous Year

Ottawa.—An important series of reports have been released by the Dominion bureau of statistics, based on statistics showing production in a number of Canadian industries during 1926.

Canada's production of creamery butter in 1926 amounted to 178,156,375 pounds valued at \$62,025,049, an increase in quantity compared with the preceding year, of 8,661,408 pounds, but a decrease in value of \$983,048.

Prince Edward Island, Ontario, Manitoba and Saskatchewan record slight increases in production, while the other provinces show decreases.

Gypsum production in Canada advanced to a new high mark in 1926. The total production for the year was 883,728 tons worth \$2,770,813 against 740,323 tons at \$2,389,891 produced in 1925.

Immigrants As Harvesters

Brandon, Man.—It is believed that the settlement of immigrants in this district this year will greatly assist in harvest operations. At the employment bureau here it was stated that Brandon's need this year for the harvest is 2,000 additional men. This is 500 lower than a year ago, but the coming of many immigrants helped solve the situation considerably.

Retail Merchants Association

Saint John, N.B.—J. T. Crowder, Toronto, and Vancouver, president of the Canadian Fair Trade League, was elected president of the Dominion Board of the Retail Merchants Association of Canada here. Regina was selected for the Dominion convention of the board for 1928.

SOVIET ACTIVITY INTOLERABLE TO FRENCH PEOPLE

Paris.—Jean Herbette, French ambassador at Moscow, who recently spent two weeks in Paris, returned to his post bearing instructions that the Soviet government be informed that communist propaganda in France is becoming intolerable to French public opinion, it was learned here.

Although the French foreign office says that M. Herbette was not instructed to make official representations involving both governments in an exchange of notes, official circles are certain that he was to make the Soviet government cognizant in an informal and unofficial manner of the sentiment of the French people and government.

While in Paris the French ambassador to Moscow had conferences with President Doumergue, Premier Poincaré and Foreign Minister Briand and also discussed the Russian propaganda situation with prominent personalities of the press, commercial, industrial and banking worlds.

He is said to have left Paris with the personal conviction as well as official advice that France is tired of what it believes to be a connection between the Communist movement in France and the diplomatic mission of Soviet Russia in Paris.

He is reported to have informed Foreign Minister Tchitcherin quite plainly that if the Soviet Government entertains hope of coming to an agreement with France on the lines of trade, commerce and industry, the Soviet embassy at Paris must put a stop to its alleged activities here.

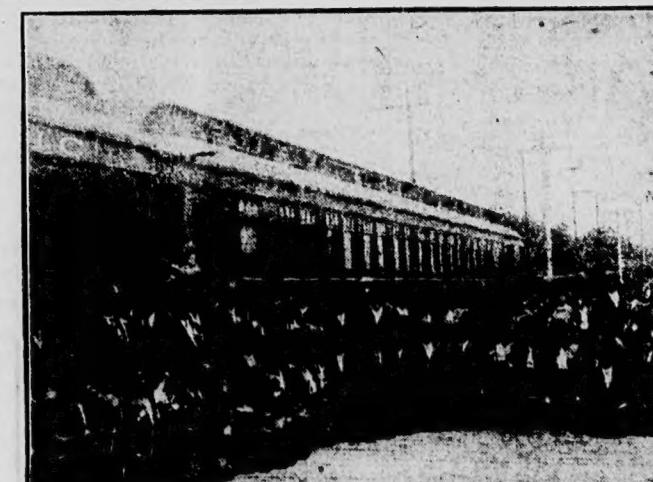

To Stage Grand Rally

Conservatives Preparing For Big Convention At Winnipeg

Ottawa.—Manitoba Conservatives are preparing for the Conservative convention to be held in Winnipeg, October 11. A manager is being appointed to carry out a full detailed program, according to advice received at opposition headquarters from General A. D. McRae, M.P., chairman of the national committee organizing for the meeting. Several thousand people from the prairie provinces alone will attend the convention, in addition to the official delegates, states General McRae. Arrangements are being made in the convention hall to accommodate 7,000 people.

Want Tariff Increased

Ottawa.—Application has been made to the United States tariff board for an increase of two cents per pound on the maple sugar duty.

Girl Guides Tour Canada

Over 100 Girl Guides from the eastern provinces and three prominent English guides, entrained from North Toronto station recently on a special Canadian Pacific train for a tour through the western part of Canada, particularly the Canadian Rockies where the party will make camp at Banff and other famous mountain resorts.

This adventure in the mountains has been uppermost in the minds of the Guides for many months. The feature of their tour will be camps set up at various points in the Rockies, the first at Penticton and then at Kelowna in the Okanagan Valley.

London Paper Fears Clash Of Popularity

"Truth" Afraid Canada Cannot Avoid Showing Preference For Either Prince Or Premier

London.—Truth, society and financial weekly, in a recent issue, says whoever planned the joint tour of the Prince of Wales, Prince George, and Premier and Mrs. Baldwin to Canada must be singularly lacking in imagination.

"The Prince of Wales is not the Sovereign and Mr. Baldwin is not a Pitt." Truth says, "but it is tactless to say the least about it, to run the risk of a clash of popularity and un-sought rivalry between the Heir Apparent and the Prime Minister of Great Britain. How are the Canadians so to divide their hospitality as to betray no sign of preferring the Prince to the Prime Minister or vice-versa?"

Truth proceeds to declare that in its opinion the tour is a mistake because of the state of Premier Baldwin's health.

"Mr. Baldwin is going to take a 'busy man's holiday' by visiting a country where, in addition to long railway journeys and exhausting public meals, he will be expected to make the most difficult kind of speeches about nothing in particular at every place he visits."

Estimate Number Of Harvesters Required

Approximately 31,000 Will Be Needed For Western Canada

Winnipeg.—Approximately 31,000 harvesters from Eastern Canada and the Pacific coast will be required by Western Canada to garner this year's crop.

This estimate was arrived at at a meeting here of representatives of the railways, the labor bureaus of the three prairie provinces and the government employment services. The first call for harvest help last year was for 58,000 men.

The distribution of imported harvest workers will be 20,000 to Saskatchewan, 8,000 to Alberta and 3,000 to Manitoba.

The first harvest special train will start moving from British Columbia to the prairies about the middle of August and the first from Eastern Canada about September 1.

Life Is Threatened

Dublin.—Eamon de Valera, following the assassination of Vice-President Kevin O'Higgins, received numerous threatening letters and the Irish Free State authorities have placed him under police protection. It was learned here. A plain clothes man accompanies the Republican leader everywhere. Other Republican leaders also received threatening letters.

WORLD POULTRY CONFERENCE IS WELL ATTENDED

Ottawa.—With forty-two countries officially represented, the third world's poultry congress was opened here.

Nearly five thousand people including delegates and members from five continents, were present when Hon. W. R. Motherwell, minister of agriculture for Canada, initiated proceedings. Some forty-two states of the American Union were represented, while all provinces in the Dominion had delegates on hand.

On behalf of the British Empire His Excellency the Governor-General, Viscount Willingdon, extended a hearty welcome to all international and Canadian delegates. Premier W. L. Mackenzie King, for the Dominion of Canada, greeted the visitors, while Mayor John Balharrige, Ottawa, presented the key of the city to all members of the International Association of Poultry Investigators and Instructors. President Brown, Hon. William Phillips, United States minister to Canada; W. D. Wilton, Holland, and Prof. Don Castello, Spain, responded to the speeches of welcome.

At the conclusion of the formal opening, Viscount Willingdon was the guest of honor at a luncheon tendered by members of the congress.

Every inch of space in the auditorium was occupied when Hon. W. R. Motherwell, minister of agriculture, as honorary chairman, initiated the proceedings. On behalf of the British Empire, His Excellency the Governor-General, Viscount Willingdon, heartily welcomed the International and Canadian delegates.

Premier W. L. Mackenzie King greeted the visitors on behalf of the Canadian people and a civic welcome was then extended by Mayor John Balharrige, of Ottawa.

Edward Brown, of London, England, congress chairman, briefly responded to the welcome extended. For the delegates from some 42 states in the American Union, Hon. William Phillips, United States minister, expressed his deep appreciation for the efforts by the Canadian government towards the comfort and happiness of his compatriots, many of whom were visiting the Canadian capital for the first time.

Urge Sales Tax Cut

Resolution Adopted At Convention Of Retail Merchants Association

Saint John, N.B.—The Dominion Board of the Retail Merchants Association of Canada here adopted 20 resolutions. The most important of these asked further reduction in the sales tax, protesting against the reduction in parcel post rates, requested tax on mail order houses, based proportionally on the operating expenses of merchants in the municipality in which they are conducting.

It is urged that such a tax be paid to the government and distributed in proportion to the municipalities. The association pledged co-operation with other organizations with remedying of the price evil on nationally advertised goods and the abolition of the stamp or "nuisance tax."

Lindbergh Heavily Insured

New York.—"We" are insured for \$150,000 during their tour of the nation. The premium on a policy on Col. Lindbergh's life with his mother as the beneficiary, was \$598.25. Other policies written by four companies are: \$15,000 on the Spirit of St. Louis, if destroyed by fire; \$10,000 for property damage and \$100,000 for public liability. Any aviator may now have his life insured for a special premium.

Automatic Radio For Ocean Boats

London.—All large ocean-going vessels will shortly be fitted with a new automatic wireless alarm apparatus. The apparatus which has been designed by the Marconi Company, will automatically pick up, discriminate, and then call attention to the fact that the vessel is within wireless range for sending out distress signals. This will relieve operators from the necessity of being always at their post.

Thursday, August 4 1927.

FIVE RING CIRCUS COMING

Yep, youngsters, it's really true! Meaning that a rumor heard some time ago is now confirmed by the official announcement that the Ringling Bros. and Barnum & Bailey Combined Shows will positively exhibit at Calgary Tuesday, August 16th.

At that time the world's first and only five-ring circus will be within easy reach of local sawdust fans.

The big show is now a third larger than it was when it last visited this locality. Enormous new displays have been introduced such as ninety zebras, camels and horses performing at one time on a mammoth pedestal.

Of the sixteen hundred people carried on tour this season more than eight hundred are the world's foremost aerialists, bareback riders, ground and lofty gymnasts, high-wire artists and super athletes.

Church Announcements

EVANGELICAL NOTES.

Rev. and Mrs. Roppel and daughter Hope are at present on a holiday trip via auto to the Pacific Coast, and expect to return August 12th. In their absence Rev. W. Reist of the Mennonite Bible School will be the pulpit supply in the Evangelical Church here and at Westcott on Sunday, August 5th.

KNOX and WESTCOTT

Sunday, August 7. The minister is taking the timely subject—"Nature and the Supernatural." Good attendance has been the order of the summer services thus far and the minister is endeavouring to bring a vital message each week. Be sure and come.

Community Hall. On August 7 at 3 p.m. Rev. A. E. Hayes will conduct the services.

S.T. CYPRIAN'S

(Church of England) — Priest-in-charge, Rev. H. Clay, Box 157, Olds. First Sunday in the month—Afternoon at 3.00 p.m. Third Sunday in month—Morning at 11.00 a.m. School is held every Sunday.

LUTHERAN CHURCH

For years it has been the custom in Lutheran churches to hold special services for the purpose of encouraging and supporting Mission Work. In accordance with this custom two services will be held in Westcott on Sunday next; German 10.30 a.m., and English 2 p.m. Weather permitting both services will be held on the picnic grounds one half mile south of the Church.

In both services a Mission offering will be lifted. Rev. C. Appelt of Wetaskiwin, formerly of Australia, will be the speaker for the occasion. A cordial invitation is extended to all adherents and friends.

In favor of the Mission Festival in Westcott the services in Didsbury will be dropped.

The Lutheran Ladies' Aid of Didsbury will meet with Mrs. C. Konchuk on Friday afternoon at 1.30 p.m.

MELVIN NOTES

At the corner eight miles west of Didsbury a very exciting baseball game was held on Monday, July 25th, between Rugby and Melvin boys. The first few innings were good, but the ne-sided game ended with a score of 28-1 in favor of Melvin. To cheer the Rugby boys a very nice lunch was served by the ladies of Melvin and district. It was arranged to play another game in the middle of August. The Melvin line-up was as follows: L. Krebs, O. Phillipson, N. Honey, R. Ackerson, T. Bolton, J. White, S. Farant, A. Krebs, D. Landeen.

DEATH OF AN OLD DIDSBURY VETERAN

After a lingering illness the death occurred at Calgary on Saturday, July 3rd, of George Hogg, in his 63rd year. Bearing the rank of Sergeant-Major, the deceased was a veteran of two wars and was a soldier practically all his life.

In 1911 he arrived in Didsbury and farmed here till the outbreak of the Great War, when he returned to his old regiment in 1914, and served five years on the headquarters staff. Returning to Didsbury after the war, he resumed farming operations until failing health compelled him to dispose of the farm. He has since resided with the family at Calgary.

A full military funeral with gun-carriage was held from the Pro-cathedral Church of the Redeemer at Calgary on Wednesday, July 27th, the remains being interred in the field of honor in the Burnsland cemetery.

LEATHER MACHINE

SAVES MUCH TIME

LONDON.—Immense possibilities for the use of leather are opened out as the result of the fulfilment of a vow by a young man to do something which had never before been successfully achieved. In a few years' time

it will be as common a thing for a woman to knit her husband a leather golfing jumper as it is now for her to knit a bonnet from rabbit wool for her baby. It is difficult to convey in the course of a short article and without describing or betraying the principle of the machine which it is claimed will revolutionize the leather industry, the production and the possibilities of the leather which is turned out by this little machine, not as big as a typewriter, and not half as complicated, from a mechanical point of view. Briefly the story is this:

A man working eight hours a day can produce, by hand, approximately 750 feet of leather in strips 5 feet long, which is the average length of a hide. This machine is capable of producing 750 feet of leather thong in one unbroken length, in 70 seconds.

The machine, which has taken a year to evolve, design, and produce, is the invention of Edward C. Lee, a Bradford man, the son of Josiah Lee, the well-known Bradford dentist, who died recently.

Fry to the number of 185,000 have been put in the rivers west of here, with the 30,000 which Fisheries Inspector Martin, of Banff, has just planted. The fry were conveyed in large cans, 5,000 to the can, travelling 140 miles with only one death. The fry are of the brown trout variety.

The Western Canada Dairy Convention which includes all dairying interests in the four Western Provinces, will be held in the Hotel Saskatchewan, Regina, from February 7th to 10th next year. This Association will be hosts to both the inter-provincial gathering and the annual provincial dairy convention of Saskatchewan.

The new mammoth pier of the Canadian Pacific Railway was officially opened recently as a feature of Greater Vancouver's celebration of the Diamond Jubilee of Confederation. Numerous mayors and officials of United States and Canadian Pacific coast ports added an international note to the ceremony.
